PROFESSIONAL SUMMARY

Software Developer with around 1 year of experience building full-stack web applications using React.js, Next.js, Node.js, and PostgreSQL. Experienced in developing REST APIs, implementing role-based access control (RBAC), and working with microservice-based architectures in Agile environments. Familiar with Docker and AWS deployment fundamentals through hands-on project experience, with a strong interest in backend development, cloud technologies, and DevOps practices.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux Toolkit, Responsive UI Design

Backend: Node.js, Express.js, Socket.IO, REST API Design & Integration, Microservices, Authentication, RBAC

Databases: PostgreSQL, MySQL, MongoDB, Prisma ORM, Convex

DevOps & Cloud: Linux, Networking Fundamentals, Docker, AWS (IAM, CLI, ECR, ECS/Fargate, VPC & Security Groups)

Tools & Platforms: Git, GitHub, Postman, Vercel, Render, VS Code, Chart.js

PROFESSIONAL EXPERIENCE

IP Super Shoppee Pvt Ltd

Sep 2025 – Mar 2026

Full Stack Developer

- Designed an enterprise campaign management module integrating Google Ads APIs with transaction management and optimized data access patterns, achieving a 30% reduction in analytics query response time.
- Built a production shipment microservice connecting 6 courier enterprise systems into a single unified shipment API, implementing reattempt workflows and cron-based sync jobs via dependency-injected service architecture.
- Developed React.js frontend modules for shipment management and analytics dashboards (Chart.js) with Role-Based Access Control (RBAC) via Redux Toolkit; established Git branching strategy and DevOps workflow for the team.
- Collaborated cross-functionally with product and backend teams to define API contracts, review system design decisions, and ensure on-time delivery of sprint milestones.

Small Fare Pvt Ltd

Jul 2025 – Oct 2025

Frontend Developer Intern

- Built a responsive admin panel in Next.js/TypeScript with reusable UI components for transaction and user management modules; integrated REST APIs within Agile sprint cycles.
- Optimized component re-renders and API call patterns, improving page load performance and overall responsiveness of the admin panel.

Baoiam Innovations Pvt Ltd

Nov 2024 – Feb 2025

Frontend Developer Intern

- Implemented and optimized React.js components with seamless backend API integration, contributing to responsive and performant user interfaces.
- Followed Agile practices — sprint planning, daily standups, and code reviews — ensuring quality delivery of assigned modules on schedule.

PROJECTS

CollabEdit – Real-Time Collaborative Editor | React.js, Node.js, Socket.IO, Docker, AWS ECS (Fargate)

- Built a real-time collaborative document editor enabling simultaneous multi-user editing via WebSocket-based synchronization using Socket.IO.
- Containerized the application with Docker and deployed it on AWS ECS (Fargate), provisioning ECR repositories, IAM roles, and VPC/Security Group networking via AWS CLI.

FitBot – AI Voice Fitness Coach | Next.js, Convex, Vapi AI, Clerk, Gemini API

- Built an event-driven backend on Convex with Vapi AI voice integration, real-time personalized fitness plan generation, and a scalable cross-device responsive UI.
- Architected a voice-driven layer that analyzes spoken input to dynamically generate personalized workout sets and nutritional meal planning.

PrepMate – AI Interview Prep Platform | React.js, Node.js, Express.js, MongoDB, Gemini API

- Developed a full-stack AI-powered interview preparation platform with modular backend services, clean RESTful API structure, and batch processing using the Gemini API.
- Deployed on Vercel with stable user session handling, structured API interactions, and optimized frontend state management for a smooth user experience.

EDUCATION

B.Tech in Computer Science and Engineering

Marathwada Institute of Technology

Chhatrapati Sambhajnagar, MH

2021 – 2025
